

React.js, Node.js, MongoDB & Express.js MCQs

React.js MCQs

1. What is React.js?

- A) Database
- B) JavaScript Library for UI
- C) Server-side Framework
- D) Programming Language

Answer: B) JavaScript Library for UI

2. Which company developed React?

- A) Google
- B) Microsoft
- C) Facebook (Meta)
- D) Amazon

Answer: C) Facebook (Meta)

3. What is JSX?

- A) Java XML
- B) JavaScript XML
- C) JSON XML
- D) Java Syntax Extension

Answer: B) JavaScript XML

4. Which hook is used to manage state in functional components?

- A) useEffect()
- B) useRef()
- C) useState()
- D) useMemo()

Answer: C) useState()

5. Props in React are:

- A) Mutable
- B) Read-only
- C) Variables
- D) Functions

Answer: B) Read-only

Node.js MCQs

6. What is Node.js?

- A) Front-end Framework
- B) Runtime Environment for JavaScript
- C) Database
- D) CSS Library

Answer: B) Runtime Environment for JavaScript

7. Node.js is built on which engine?

- A) SpiderMonkey
- B) Chakra
- C) V8 Engine
- D) Java Engine

Answer: C) V8 Engine

8. Which module is used to create a web server in Node.js?

- A) fs
- B) http
- C) path
- D) url

Answer: B) http

9. Node.js is primarily:

- A) Synchronous
- B) Asynchronous
- C) Blocking
- D) Multi-threaded

Answer: B) Asynchronous

10. Which keyword is used to import a module in Node.js?

- A) include
- B) import
- C) require
- D) using

Answer: C) require

Express.js MCQs

11. What is Express.js?

- A) Database
- B) Front-end Library
- C) Web Framework for Node.js

D) Operating System

Answer: C) Web Framework for Node.js

12. Which method is used to define a GET route?

A) app.post()

B) app.get()

C) app.put()

D) app.delete()

Answer: B) app.get()

13. What is middleware in Express.js?

A) Database Query

B) Function that processes requests and responses

C) HTML Page

D) CSS File

Answer: B) Function that processes requests and responses

14. Which method starts the Express server?

A) app.run()

B) app.start()

C) app.listen()

D) app.execute()

Answer: C) app.listen()

15. Which object is used to send a response to the client?

A) req

B) app

C) res

D) router

Answer: C) res

MongoDB MCQs

16. MongoDB is a:

A) Relational Database

B) NoSQL Database

C) Programming Language

D) Web Server

Answer: B) NoSQL Database

17. MongoDB stores data in the form of:

- A) Tables
- B) Rows
- C) Documents
- D) Sheets

Answer: C) Documents

18. Which command is used to insert a document?

- A) insertOne()
- B) addOne()
- C) create()
- D) saveData()

Answer: A) insertOne()

19. Which command is used to retrieve documents?

- A) get()
- B) fetch()
- C) find()
- D) search()

Answer: C) find()

20. Which command is used to delete a document?

- A) removeData()
- B) deleteOne()
- C) erase()
- D) clear()

Answer: B) deleteOne()

21. Which command is used to update a document?

- A) modifyOne()
- B) change()
- C) updateOne()
- D) edit()

Answer: C) updateOne()

22. In MongoDB, a collection is similar to a _____ in MySQL.

- A) Row
- B) Column
- C) Table
- D) Key

Answer: C) Table

23. Which operator is used to set a new value while updating?

- A) \$set
- B) \$update
- C) \$change
- D) \$modify

Answer: A) \$set

24. MongoDB uses which format to store documents?

- A) XML
- B) CSV
- C) BSON
- D) TXT

Answer: C) BSON

25. Which method is used to find a single document?

- A) findSingle()
- B) findOne()
- C) getOne()
- D) searchOne()

Answer: B) findOne()

Important Viva MCQ

26. MERN stands for:

- A) MongoDB, Express.js, React.js, Node.js
- B) MySQL, Express.js, React.js, Node.js
- C) MongoDB, Express.js, Redux, Node.js
- D) MongoDB, Electron, React.js, Node.js

Answer: A) MongoDB, Express.js, React.js, Node.js

27. Which component of MERN is used for the database?

- A) React.js
- B) Node.js
- C) Express.js
- D) MongoDB

Answer: D) MongoDB

28. Which component is used for building the user interface?

- A) MongoDB
- B) React.js
- C) Express.js

D) Node.js

Answer: B) React.js

29. Which component acts as a web application framework?

A) React.js

B) MongoDB

C) Express.js

D) HTML

Answer: C) Express.js

30. Which component provides the runtime environment?

A) React.js

B) Express.js

C) MongoDB

D) Node.js

Answer: D) Node.js
